

### Wegner's Puzzling Evidence

---

**Directions:**

1. Follow the direction on the legend page.
  2. Cut out the landmasses.
  3. Try to logically piece the continents together to form a Supercontinent.
  4. When you are satisfied with the results glue them on the back of this sheet.
  5. Using the puzzle, answer the questions below.
- 

1. What four kinds of evidence support Wegner's theory that South America was at one time joined with Africa? Be specific!

- a. \_\_\_\_\_
- b. \_\_\_\_\_
- c. \_\_\_\_\_
- d. \_\_\_\_\_

2. What dinosaur is found on almost every continent?

\_\_\_\_\_

3. Since a dinosaur cannot swim, explain how you think a fossil can be found on all continents?

\_\_\_\_\_

4. It is generally considered that dinosaurs live in warm climates, yet fossil remains are found in Antarctica. How can this be explained?

\_\_\_\_\_

5. Where does Africa join Australia?

\_\_\_\_\_

6. What is the evidence?

\_\_\_\_\_
